

Dear Mister Minister

We would like to ask for your support in our effort to protect and salvage the cultural heritage of Cyprus. We are group of teenagers from six countries and we believe that politicians and all members of our society should work together because Cyprus cultural heritage is very important for the whole of Europe because it connects us to the ancient civilizations. We think, teenagers in every European country should be educated about ancient culture and history. Furthermore we would ask you to organize campaign which will protect ancient ruins from vandalism. We wish that our voice will be heard and you will take our cause seriously.

Yours faithfully,

Comenius Programme 2011 in the countries:

France - Mathilde de Goër

Cyprus - Theodora Charalambous, Anthia Panayiotou
